慶應義塾大学 ORC・慶應義塾大学人文グローバル COE 論理と感性の先端的教育研究拠点の共催

## Intersection of Brain and Religion

### Understanding Religiously Elevated Emotions via fMRI and General Theoretical Models of Mind and Emotions

日時：2011年2月18日(日) 16:30~20:00

場所：慶應義塾大学医学部 信濃町キャンパス予防医学校舎、セミナールーム7

<http://www.keiopublichealth.jp/access>

The studies of mind and consciousness have been developed into a new horizon with the introduction of fMRI research; with this recent trend in scope, two distinguished researchers of different specialties deal with new approaches to the study of religious consciousness and elevated emotions. Professor Henk Barendregt of Radboud University, a Vipassana teacher in the tradition of Mahasi Sayadaw who received the Spinoza award in 2002 for his mathematical logic in lambda calculus, focuses Models of Mind with reference to Buddhism. He has been doing related fMRI oriented researches in a collaboration with brain scientists, psychologists, and psychiatrists. Prof. Gerald Cupchik of the University of Toronto discusses elevated emotions in religious contexts and aesthetic of emotions from his long-pursued unique scholarship on a general theory of emotions with combined methodologies including fMRI-oriented research. His original perspective reaches the latent emotional root behind emotions in religion and art. He received Rudolph Arnheim Award from Division 10 of the American Psychological Association for "distinguished contribution to research in psychological aesthetics."

16:30 挨拶 **渡辺茂** (慶應義塾大学大学院社会学研究科教授、脳と進化班)

16:40 **Henk Barendregt** (Radboud University、数学・コンピューターサイエンス教授)

#### Neurocognitive models of the mind inspired by Buddhist psychology and vipassana

17:50 **Gerald Cupchik** (University of Toronto、心理学教授)

#### Does G-d have an Address in the Brain? A New Light on Religiously Elevated Emotions in General Theory of Emotion

18:00 指定討論 **渡辺茂** (慶應義塾大学大学院社会学研究科教授、脳と進化班)

**宮坂敬造** (慶應義塾大学大学院社会学研究科教授、哲学・文化人類学班)

司会 **岡田光弘** (慶應義塾大学大学院社会学研究科教授、論理学)

主催・企画 慶應義塾大学内・相互的感情身体知の文化医療人類学・人間科学研究会

慶應義塾大学 GCOE「論理と感性の先端的教育研究拠点形成」文化人類学チーム
